of working parents in TN report work disruptions due to inadequate childcare²

Poverty is a Risk Factor for:³

Depression

Diabetes

Low physical activity

Heart Disease

POLICIES & PROGRAMS

- **ThreeStar** is a strategic community development program from the TN Department of Economic & Community Development that assists with planning and resource alignment.
- **The Tennessee Financial Literacy Commission** provides financial education resources for Tennesseans of all ages.

PLANNING FOR COLLABORATIVE ACTION

- **Create community “charging stations”** that connect residents with local resources, government support, and health referrals in places like libraries or community centers.
- **Promote technical skills training programs** that provide workforce training outside of a traditional college track and help young people know all their options to finance their future.

BARRIERS TO CHANGE

Stigma against support programs

Poverty is connected to most health and social issues, so it is difficult to address all at once
